### 3. PARTICIPATIVE LEARNING:

#### 3.1 GUEST LECTURES

##### CHALLENGES IN CIRCUIT DESIGNING

Date: 23.09.2019.

Resource person: Dr.K.Hariharan, Associate Professor, Electronics & Communication Engineering, Thiagarajar College of Engineering, Madurai.

#### **Objective of the Program:**

- To acquaint students with design concepts of electronic circuits and components.

#### **Topics Covered:**

- Operation of Active and Passive components and its design constraints.
- Biasing of transistors.

#### **Outcomes:**

- Students were enlightened with this guest lecture by becoming aware of the operation of active and passive electronic components
- Students became aware of the challenges confronted by a design engineer while constructing new electronic circuits
- The content made the student to create an affinity towards this subject since it was explained using real life analogy

### FIBER OPTICS-CHALLENGES, APPLICATIONS AND FUTURE PROSPECTS

**Date: 23.09.2019.**

**Resource person: Dr. S.K. Pandiyan, Senior Assistant Professor, Electronics & Communication Engineering, SASTRA deemed to be University, Thanjavur**

#### **Objective of the Program:**

- To make the student understand the fiber optic theory and operation, including past, present and future applications as well as its advantages and disadvantages thereby to bring them insight into the broad and diversified applications of fiber optic technology.

#### **Topics Covered:**

- Introduction to optical fibers
- Signal degradation in optical fibers
- Optical Fiber Modes and Configurations
- Link power budget -rise time budget
- Fiber optic theory emerging trends and future applications

#### **Outcomes:**

- Demonstrate an understanding of optical fiber communication link, structure, propagation and transmission properties of an optical fiber.
- To know about the signal degradation happening in an optical fiber.
- Design a fiber optic link based on link power budgets

### INDUSTRIAL SAFETY ENGINEERING

Date: 22.08.2019

Resource person: Mr.K.R.Balasubramanian, Associate Professor, Mechanical Engineering Department, NIT, Trichy

#### Objective of the Program:

- To impart knowledge about the Industrial safety engineering concepts in detail.

#### Topics Covered:

- The importance of Safety Engineering in an industry
- An Introduction about the concept of Safety Management System (SMS) and explained about principles and methods in SMS implementation briefly
- Visualizing videos regarding safety & health awareness and industrial accidents due to poor safety measures
- A discussion on "Nuclear energy needs" and its level of safety in utilizing those resources.

#### Outcomes:

- The students were able to update their knowledge regarding industry safety issues and future industrial trends in India.

**Date: 03.10.2019**

**Resource person: Dr. G.Venkatesan, Assistant Professor, Department of Civil Engineering, Anna University BIT Campus, Trichy.**

#### **Objective of the Program:**

- To impart knowledge on Indoor air pollutant and its management.

#### **Topics Covered:**

- Indoor air quality management.
- The theories for major air pollutant control.

#### **Outcomes:**

- Ability to understand characteristics of indoor air pollutants.
- Ability to design and particulate air pollution control devices.
- Ability to manage Indoor air quality.

Date: 20.08.2019

Resource person: Dr. R. Gandhiraja, Assistant Professor, Department of EEE, Anna University BIT Campus, Trichy.

#### Objectives of the Program:

- To introduce the reactive power control techniques.
- To educate on static VAR compensators and their applications. ...
- To educate on STATCOM devices.
- To provide knowledge on FACTS

#### Topics Covered:

- Types of various FACTS devices
- STATCOM,
- Static VAR compensator and
- Concept of co-ordination of various FACTS controllers.

#### Outcomes:

- Ability to understand the concept of reactive power control techniques
- Ability to explain the operation of various controllers and its application
- Ability to Understand the concept of facts co-ordination

### AIR POLLUTION AND CONTROL ENGINEERING

Date: 08.08.2019

Resource person: Dr. J. Thirumal, Assistant Professor, Department of Civil Engineering, Anna University Regional Campus, Tirunelveli.

#### Objective of the Program:

- To impart knowledge on the principle, design and control of Indoor/ particulate/ gaseous air pollutant and its emerging trends.

#### Topics Covered:

- Basic concepts of Air Pollution and its Control technologies,
- Meteorology,
- Control of Particulate Contaminants & Gaseous Contaminants,
- Indoor air quality management and
- The fundamental theories as well as practices of various devices for major air pollutant control.

#### Outcomes:

- Ability to understand the nature and characteristics of air pollutants.
- Ability to design stacks and particulate air pollution control devices to meet applicable standards.
- Ability to identify, formulate and solve air & noise pollution problems

Date: 26.07.2019

Resource person: Mr. A. Jayakumar, Senior Engineer, Livewire, Trichy.

#### Objective of the Program:

- To develop the knowledge about ETAP software.

#### Topics Covered:

- Introduction to ETAP
- Usage of ETAP for Power system problems.
- Study of load flow analysis using ETAP

#### Outcomes:

- Ability to develop the knowledge in ETAP software.
- Ability to understand the solution for power system problems

### MOBILE APP DEVELOPMENT USING ANDROID

Date: 24.09.2019

Resource person: Mr. S.P.Srinivasan, Technical Head, Gateway Finishing School,  
Trichy.

#### Objective of the Program:

- To know the components and structure of mobile application development frameworks for Android and windows OS based mobiles.

#### Topics Covered:

- Basic components of an Android application.
- Lifecycle methods of Android application components.
- Basics of event handling in Android.
- Basics of graphics and multimedia support in Android.
- Demonstrate basic applications of using an integrated development environment.

#### Outcomes:

- Design and Implement various mobile applications using emulators.
- Deploy applications to hand-held devices.

### SECURITY ISSUES IN CLOUD COMPUTING

Date: 31.08.2019

Resource person: Mr.Vijai Veeramani, DevOps Engineer - Senior Project Manager,  
Oracle Corporation, Bangalore.

#### Objective of the Program:

- To enrich student knowledge in “Security Issues in Cloud Computing” which specifies the safety and security of communication and user authentication, data authentication such as integrity and authentication, non-repudiation of origin, and confidentiality in cloud computing.

#### Topics Covered:

- Basic concepts of Cloud Computing.
- Data Loss and Inadequate Data Backups
- Shared Cloud computing services.
- Live demonstration on their own company cloud environment.

#### Outcomes:

- Gain knowledge on the concept of virtualization that is fundamental to cloud computing.
- Enrich the knowledge of programming skill in cloud.
- Understand the security issues in cloud environment.

### BLOCK CHAIN TECHNOLOGY

**Date: 30.08.2019**

**Resource person: Mr.R.Bala Dhandayuthabani, Senior Project Manager, ATOS-Syntel Inc USA & System Pvt. Limited, Chennai.**

#### **Objective of the Program:**

- To impart knowledge in a decentralized/distributed and public digital ledger that is used to record transactions across many computers and record cannot be altered in block chain.

#### **Topics Covered:**

- Block chain technology and Bit coin crypto currency
- Concepts and relevance of Block chain, Block chain network
- Introduction to Bit coin mining
- Performing transactions using Block chain
- Introduction to smart contracts
- Languages used in Block chain contracts
- Deploying transactions on the Block chain node
- Working on real-world Block chain projects

#### **Outcomes:**

- Familiarize the functional/operational aspects of crypto currency ECOSYSTEM.
- Understand emerging abstract models for Block chain Technology.
- Identify major research challenges and technical gaps existing between theory and practice in crypto currency domain.

Date: 05.09.2019

Resource person: Er. Jayakumar, Livewire Trichy.

#### Objective of the Program:

- To enhance the knowledge of students in AutoCAD and E-cad
- To create and modify both electrical diagrams and layouts.
- To generate Schematic report and Panel Report

#### Topics Covered:

- Introduction to ECAD
- Basic Schematic Circuit Drawing.
- AUTOCAD TO ECAD conversion
- Report Generation

#### Outcomes:

- Students can able to use AUTOCAD software.
- Ability to draw the electrical circuits with various components into the layout.
- Ability to generate reports for the Circuits.

**Organizer: EDC in collaboration with IETE student's forum.**

**Resource person: Mr.R.Karthi, New Technology, Mobile Service & Training Institute, Coimbatore**

### **Objective of the Program:**

To make the student to understand about tracking, identifying Components, Trouble Shooting and also assembles and disassemble the Mobile Phone.

### **Topics Covered:**

- Basics of Electronic Components, Current and voltage power.
- AC current and DC Current, IC Identification in mobile phone.
- Testing of Battery and Components by using various Testing method.
- Circuit Diagram for i) Speaker and Ringer Solution ii) Insert SIM (or) No Signal Solution (iii) Charging Solution
- Checking of Speaker, Mike and Ringer in Mobile phone, Dead Mobile Solution, Software Problems in Mobile phone

### **Outcomes:**

- Identification of Active and Passive Component in the PCB Board inside the mobile phone
- Students have learned about how to diagnose the mobile Phone.
- Students have learned about how to replace the components according to the problem occur in the mobile phone.
- The Students have gained basic knowledge to become the Entrepreneur in mobile session

**INDUSTRIAL EXPECTATIONS FROM ENGINEERS**

**Date: 19.08.2019**

**Organizer: Department of Mechanical Engineering in association with EDC.**

**Resource person: Mr.S.Senthilkumar, Assistant Professor, Mechanical Engineering Department, Alagappa Chettiar Government College of Engineering and Technology (ACGCET)**

**Objective of the Program:**

- To impart knowledge about the expectation of the Industries from the Engineering Graduates.

**Topics Covered:**

- The importance of Engineering courses and its huge employability opportunities around the world.
- Focus of industry on creativity skills, time keeping, basics of technical knowledge and Professional attitude
- The importance of club activities, particularly about SAE (Society of Automotive Engineers) activities.
- Visualizing a video on 'Tractor design and fabrication' as a motivated force to think in other perspectives outside the curriculum.

**Outcomes:**

- The students were able to update their knowledge regarding industry expectations.

## ENTREPRENEURSHIP IN PCB DESIGNING AND MAKING CIRCUITS

**Date: 03.10.2019 & 04.10.2019**

**Resource person: Mr. E. Arunvijayan and Team, Pantech Proed Pvt. Ltd., Trichy**

### **Objective of the Program:**

- To gain basic concept of PCB design.
- To provide design knowledge with Proteus software.
- Expose the students to practical process of PC board preparation.

### **Topics Covered:**

- Introduction to Proteus software.
- Basic Schematic Circuit Drawing using software.
- Design of Oscillator and Multi vibrator circuits in PCB.

### **Outcomes:**

- Students can able to understand PCB vital role in engineering field.
- Students can able to do the design the circuits with Proteus software.
- Students can able to prepare the designed PCB with raw material.

## 3.5 ORGANIZATION OF SEMINARS/STUDENT SEMINAR/ROLE PLAY

### KNOWLEDGE ENRICHMENT PROGRAM ON DIGITAL MARKETING

**Date: 29.07.2019**

**Resource person: Mr. Ananthram, Head, Synergy School of Business, Bangalore**

#### **Why this Seminar?**

There are many facets of traditional marketing and examples might include tangible items such as business cards, print ads in newspapers or magazines. It can also include posters, commercials on TV and radio, billboards and brochures. In modern business, digital marketing play a vital role because most of the people uses social media much more rather than anything else. Digital marketing uses things like websites, YouTube videos, E-mail marketing, banner ads etc. Specifically, digital marketing is similar to traditional advertising, but use digital devices. For the speedy business environment it is needed to learn the concept of Digital Marketing so that a business man can compete in the market and survive in the long run.

#### **About the Seminar:**

The Department of Computer Science & Engineering, M.I.E.T. Engineering College, Trichy organized a Seminar "Knowledge Enrichment Program on Digital Marketing" on 29-07-2019 for both the Third year and Final year CSE Students in the Seminar hall. Mr. Ananthram, Head Synergy School of Business school, Bangalore was the key note speaker of the session. He exemplified about the need and significance of Digital marketing. And also he conferred the importance Digital marketing which plays a vital role in today's era. He fashioned awareness among students about the learning of Digital marketing.

## INVESTOR AWARENESS PROGRAMME

**Date: 29.10.2019**

**Resource person: Mr.A.Dharmarajan, Branch Manager, Venture Securities Ltd.,  
Trichy**

### **Why this Seminar?**

Over the last few years, many investors have been misguided or cheated in the process of investing. In order to protect the investors and raise the awareness levels about the various investment portfolios, the program was organized and it focused to make more investors as possible since savings is so much important in the current scenario. It is very important to establish the purpose for investing.

### **About the Program:**

By this program, an individual can learn why savings are more important and the program is planned to help the participants in setting the objectives for investing their funds. The various investment portfolios have certain factors which may affect the number of investors and volume of investment. Those factors were clearly explained by the resource person and which are as follows:

- Need for financial goals and financial discipline
- Impact of Inflation
- Investment Options (Asset Class) for Individuals
- Importance of Equity and introduction to Mutual funds
- Power of compounding & SIPs as an investment vehicle
- Risk mitigation
- Do's and Don'ts while investing

In the program, the awareness with regard to investment and the way how to select the investment alternative from the portfolios were discussed.

### REPORT ON STUDENTS SEMINAR

#### Submitted to the Head of the Department

The Seminar was conducted in the mid of the semester on 04.10.2019 and 07.10.2019. The selected meritorious students were informed on 03.10.2019 with the topics allocated. The selected students were come with greater level of enthusiasm on the allocated day of the seminar and they had been given a brief lecture about how to take seminar. The students then moved with their presentation. After some time, the seminar had become a Group Discussion where the participants were discussed about the topic and its relevance in the current scenario. Apart from the regular syllabi a healthy discussion was happened. Through the group discussion the students had also learned how to participate in the forums and they had a better exposure about Team building concept. They discussed about the implementation of Team building in the organizations and relevance of Interpersonal relations in an organization. This kind of sessions may help the students to get motivated to read magazines for regular updates in the field of study. As a course in-charge I feel very happy for such a nice seminar that was organized.

## Why this Symposium?

A symposium is organized to explore various ideas of experts in a given field. In a symposium the students can present papers and participate in events that are to be conducted. They can also discuss the important issues and trends with the expert and make recommendations for a certain course of action. It may have the following benefits:

- Provides an opportunity to the listeners to take decision about the Problem.
- Develops the feeling of co-operation and adjustment.
- increases confidence by creating a chance to present/participate in front of experts

## About the Program:

The National Level Technical Symposium was organized by all the Departments of Engineering & the Department of Science & Humanities on 22.02.2020 for the Academic Year 2019-2020. There were a total of 23 events had been organized by the departments. The participants came from various institutions in around Trichy.

The Chief Guests of the function are as follows:

1. Dr. M.Krishnan, AE, TWAD Board(Maintenance Division), Erode – Inaugural Address
2. Dr.S.K.Pandian, Senior Professor, Department of ECE, SASTRA Deemed University, Thanjavur – Department of ECE.
3. Mrs.G.Sangeetha, Agile Coach and Serum Master, HEXAWARE, Chennai – Department of CSE.
4. Dr.V.Rajagopalan, Asst.Professor, Department of Civil Engineering, BIT Campus, Trichy – Department of Civil Engineering
5. Dr.P.Anbalagan, HOD, Department of Electrical and Electronics Engineering, BIT Campus, Trichy – Department of EEE.
6. Dr.T.Parameswaran Pillai, Associate Professor, Department of Mechanical Engineering, BIT Campus, Trichy – Department of Mechanical Engineering.
7. Dr.S.Brahadeeswaran, Professor of Physics & Deputy Director of Anna University BIT Campus, Trichy - Department of Science and Humanities.

The participants were performed with high energy and got more prizes in all the events. It was considered as a remarkable event.

## 4. PROBLEM SOLVING METHODOLOGY OF LEARNING:

### 4.1 MANAGEMENT GAMES

**Place: On-Campus of M.I.E.T. Engineering College, Trichy**  
**Date: Every Thursday (Last THREE hours – For MBA Students)**

#### **About Management Games**

The Learning should always be enjoyable. Listening to a person talk is one of the methods of learning. However, it is less suitable for people who prefer more practical and active in approach. Management games help makes the learning as more interactive, enjoyable and realistic with key learning points to take for the workplace. Games should not be played for the sake of it, or for making the life of a facilitator easier. However, there are many reasons for running management games which include:

- It may simulate real life conditions and so each and everyone will learn how to handle a real time situation.
- It is enjoyable with lots of learning in a short span of time

- It generates interest in the subject and is rich in solving a problem which may arise in the regular life.
- It allows participants to easily interact, socialise, and network with others
- It provides much evidence for the facilitator and participants to debrief and learn from.

Interpersonal skills are the key skills for a manager and it is possible to read about these in a book. But it is mandatory for everyone to learn more about them from a practical activity, where they get feedback from others on the affect that they had on them.

## 4.2 MANAGEMENT MEET

**Topic: "Management Meet"**

**Date: 06.03.2020**

**Resource person: MrA.Andrew, Asst. Manager, BHEL, Thirumayam**

### **About Management Meet**

In the earlier days college life was entirely about academics and the students mostly focused on attending lectures and writing exams only. But in the recent scenario, the college education is viewed to engage students and prepare them for the real world. For the fulfillment of the said purpose, the colleges and universities are routinely organize college fests and programmes where they encourage students to participate and showcase their latent talent. Students also put in their best efforts to make these college fests and programmes more entertaining and exciting. The fact is that, these multiple cultural events, technical fests, celebrity performances, competitions, partying with friends make the student more confident. These amazing college fests in fact play a significant role in shaping the career of a student in several ways. It may provides Educational benefits, promotes Social interaction and develops Soft skills to the students in an attractive manner.

## 4.3 CASE STUDIES

**Discussion on Cases  
In Regular Classes of MBA Programme**

### **About Case Studies**

Most of the students are more inductive than deductive, which mean that they learn better from real examples than from theoretical aspect. In order to satisfy the said kind of students the case studies is considered as an effective classroom technique. A teacher who wants the students to explore how what they have learned applies to real world situations use case study method of teaching.

A major advantage of teaching with case studies is that the students are actively engaged in figuring out the principles by abstracting from the examples. This develops their skills in:

- Problem solving
- Analytical tools, quantitative and/or qualitative, depending on the case
- Decision making in complex situations
- Coping with ambiguities

By this concept, case studies are being used as a methodology of teaching in the higher educational institutions.
